**production / system time**  
*Production labor includes design, typesetting, changes to supplied files, electronic file submissions to manufacturers or publications, electronic proofs (pdfs) of supplied files to customer for approval, color correction or clean-up of scans, checking traps, manual trapping or imposition, etc.*  
 Production time will be billed at **\$100 per hour** (\$25 minimum charge)

- fine print**
- ▲ Complete, accurate instructions must accompany your file. We cannot be responsible for misunderstandings or delays caused by missing or incomplete information.
  - ▲ We support files created in QuarkXpress 9 and Adobe CS6 (InDesign, Illustrator, Photoshop). If you submit native files, please include all supporting files, graphics and fonts. We accept high resolution pdf files, with fonts embedded. We do not support native files created in Microsoft Word, Excel, Publisher or PowerPoint – please create a high resolution pdf if you are working in one of these programs.
  - ▲ All prices are based on standard turnaround time. We are closed on major holidays and weekends, but we are willing to work with you if you have a deadline – please call to find out if someone will be available to help. Service on weekends, holidays and after regular business hours will be charged at 150%.
  - ▲ Payment is due at time of service unless credit terms have been established. On established accounts, payment is due 30 days from the invoice date (you will not receive a reminder statement unless requested). We do not accept credit cards.
  - ▲ Every attempt is made to make sure your files are correctly imaged. If Delta Graphics, Inc has made an error, we are responsible only for the cost of material replacement of film, plates or proofs. We are never responsible for printing costs or other losses incurred by incorrect or faulty materials, regardless of error. You should carefully inspect all materials when they are received and notify us within five working days if there is a problem with the output.
